

# I Love to See the Temple

## Temple Match Game

### How to Play:

- Pick out 4-15 temple pictures you'd like to include in your temple match game. Print out 2 copies of each picture on cardstock.
- Line up the pictures, in a random order, on the whiteboard. While you sing "I Love to See the Temple" have children take turns coming up to flip over 2 pictures, trying to make a match!
- Continue looking for matches until you've turned over all the pictures as matches!
- I would recommend 8-12 total pictures (4-6 matches) for JR primary and 16-24 total pictures (8-12 match sets) for Senior Primary. If you have a combined group, you might aim closer to the older kids' group, as they'll easily pick up the pictures the younger children reveal earlier in the game!
- Talk about how different all the beautiful temples are, around the world, but that they all share the exact same meaning and purpose. Inside, the temples have the same facilities for baptisms and other ordinances!

*This match game was prepared by PrimarySinging.com with pictures available in the LDS Media Library. It is available for use for your own personal and church needs. Do not distribute or copy for others.*
