

Primary Review – Emoji Text Acronyms Songs

How to Play Text Emojis Review Game:

- Prepare your list of songs and print and prepare them ahead of time in the order of your choice.
- Draw a pretend phone up on the white board. Just a single black line outline and another interior black line closely placed, then one big round circle button at the bottom will work!
- Post one “incoming” text message at a time, and have the kids help you decode the message.
- If they need help solving the song message, have the pianist help by playing the music notes quietly as they guess. Or, start giving them clues as they guess parts of the message (like the emoji’s word) by saying phrases like “Oh, that reminds me of this song about ... I think it talked about ...”
- When solved, sing through the song together!
- Then, have another message come through on your phone.

Junior Primary Adaptations:

- In Junior Primary - start by singing the song FIRST! Then, show the message! Especially if they haven’t heard the song before.
- Play the musical track and hum along as soon as you start taking guess.
- Focus on getting the emoji right, and you can either spoil the rest or prompt them with clues!

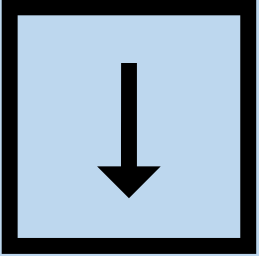

Alternate Ideas & Extension Activities:

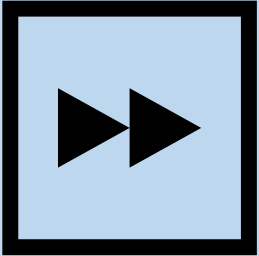

- Sing all of the words EXCEPT the ones in the text message.
- Sing ONLY the words from the text message.
- Clap or pat the song title words!
- Speed sing through the songs!
- Ask for a soloist (consider a prize for volunteers)
- Play a music video to coordinate with the texts. (Oh look, they sent me a link to the music video!)
