

Did Jesus Really Live Again – Easter Eggs

Activity Instructions:

1. Prepare 4-5 easter eggs with items symbolizing Christ's crucifixion and resurrection. Make sure each item is small enough to fit inside one easter egg.
2. At the beginning of primary, show the children the closed easter eggs and tell them that each one has something very special inside.
3. Begin singing through Did Jesus Really Live Again as a quick review.
4. Begin singing the song a second time, this time passing around one of the easter eggs.
5. After singing through one verse, invite one of the children to open the easter egg and reveal what's inside. Briefly discuss the item and its meaning.
6. Continue singing through the verses until all easter eggs have been opened.

Extension Ideas:

- After you reveal the contents of each egg, continue to pass around the eggs. Have the pianist stop playing at a random spot. When the music stops, the person holding the egg has to say or sing the next line of the song!
- If you want to use this as an introduction activity, have the pianist play the accompaniment while you pass around the eggs.
- Hide the eggs around the room for an easter egg hunt! When someone finds an easter egg, they get to help lead the music!
