

# Choose the Right Up & Down Activity

## Activity Instructions:

1. Begin by reviewing Choose the Right once or twice.
2. Sing the first verse again. This time, challenge the children to jump up each time they hear the word "Right."
3. Pass out the CTR shields and instruct the children to jump up and hold their CTR shield up high when they sing "right."
4. Continue singing through the verses and jumping up and down!

## Extension Ideas:

- Switch off sides! Have each side take turns for who gets to jump up. For example, the right side can jump up on the first "right" and the left side can jump up the next time!
- Choose another word to jump up to! You can add as many words to the mix as you'd like.
- If you choose to color your CTR shields, you might have each color correspond with a verse of the song. Children with that color get to sing the verse and jump up together.
