

Teach Me to Walk in the Light: Hide & Seek

How to Play:

1. Choose a small item to hide during primary.
2. At the beginning of singing time, review the lyrics to Teach Me to Walk in the Light. If teaching more than one verse, review one verse at a time.
3. Show the children the item you will be hiding and explain that one child will be looking for the item.
4. Have one child leave the room.
5. While the child is out of the room, have the children choose a hiding spot for the item.
6. Once the item is hidden, have the child come back in the room and start looking for the item.
7. To help the seeker, children will sing a verse loudly when the seeker is close to the item. As the seeker moves further from the item, have the children sing quietly.
8. Continue repeating one verse of Teach Me to Walk in the Light while the seeker searches for the hidden item.
9. Once the item is found, choose another child and review another verse!

Extension Ideas:

- Use this activity as a review for multiple songs! On colored or copy paper, write the names of the songs you have been learning in primary this year. Cut out each name and place in a jar or bowl. Allow the seeker to choose a song from the jar for the class to sing!
- Blindfold the seeker. Have the seeker choose a helper to guide them through the room. The guide is allowed to know where the missing item is, and they can help the seeker find the item. For an alternate way, have the "guide" go out of the room too!
- Have a teacher search for the hidden item! Have all the children practice the song by helping the teacher find the item with loud VS soft dynamics.
