

I Feel My Savior's Love Heart Attack!

Activity Instructions:

1. Before singing time, prepare a large number of multi-colored hearts. You can cut out the hearts beforehand to save some time!
2. Discuss with your primary presidency any families in your ward or community who may need extra love and support. Choose one to two families to "heart attack!"
3. At the beginning of primary, review the first verse of I Feel My Savior's Love.
4. Introduce the activity by explaining that one of the ways we can feel the Savior's love is by showing Christlike love to others through service!
5. Pass out some crayons and hearts to each teacher to give to the kids in their class.
6. Sing through the song again, this time inviting the children to think of some compliments or kind words to share with the family (you may choose to disclose the name of the family or not).
7. After singing, give the children some time to color a picture or write a note on a few hearts. While they work on their hearts, have the pianist play the song. You might even choose to play a music video while they work.
8. Take brief pauses throughout the activity to sing through a verse!
9. Collect all the completed hearts at the end of singing time. After primary, deliver the hearts to the family.

Extension Ideas:

- Instead of making hearts, heart attack the primary room before primary! Write each child's name on a heart and tape them around the room. On the back of each heart, write a fun way to sing the song.
- While you sing, have the children write one way that they feel the Savior's love on a heart. Have the children share their ideas and take home their hearts to remember during the week!
