Folding Directions:

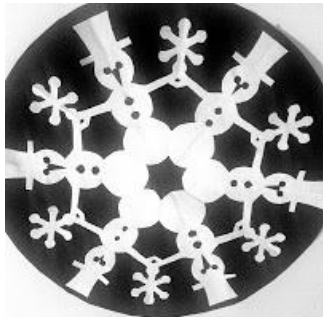

- Print and cut out the square.
- Fold on grey lines:
 - Fold in half diagonally across the middle of a diamond shape, creating two triangles.
 - Fold in half along the long edge
 - Fold in thirds, following the print lines. You'll have a flat edge in the center and two pointed edges that extend beyond the edge. Don't worry – this is the correct fold!
 - This will give you 12 wedge shaped pieces
- Carefully cut the shaded grey areas; remove the grey pieces.
 - If there are both darker grey and lighter grey, cut the darker grey out first, then unfold and cut out the lighter grey on every other pattern.
 - For faint lines, you'll use those as a cut only to reach the next section to remove.
 - A tip is to use blunt kid scissors and cut from the middle of the blade, not the tip, to give you more control.
- Unfold the snowflake and you'll see the repeating pattern!
- You can laminate to protect them or glue onto dark paper to help the pattern be easily seen.
- Write your song of choice and song number on the back.

Do not share this file. To share this file with others, please direct them to this blog post link where they can download their own copy. This helps preserve and protect Erin's original copyright and distribution as well as my time compiling, organizing, and sourcing the templates. See links to source files on the final page of this document.
